OAR's immediate office sent revisions to the O&G policy preamble to OAQPS shortly before the shutdown, and OAQPS sent them to us this morning. They are attached – both a clean version and a red-line strike-out. (I assume they include input from Justin, but don't know for sure.)

Howard—See note from David Cozzie below. I've attached the clean and RLSO version. The workgroup may be interested in seeing this as well. I want to check in with you prior to sharing.... Do you prefer to review and discuss between OGC/OAR prior to sharing with the workgroup? Please note that this version does not contain changes made in the master file on sharepoint between Nov. 21 to Dec. 31. I will need to merge these changes into the master file, that will not take long. This version attached will at least be helpful if you wanted to get this on the radar of others in OGC.
